

Micro SD card

Key Feature:

- **Standardized** : with the SD Card Association's micro SD specifications
- **Specifically designed for mobile phones**
- Provides additional memory and expansion and upgrade potential for mobile phones without adding cost to handset
- **Versatile**
- When combined with a SD adapter, can be used as standard SD card
- Fully compatible with hosts that use SD Memory Cards
- **Ultra portable** : slim, small, light weighted design
- Supports CPRM, SD and smart SD security
- **Economical**
- Support auto-sleep mode to preserve system battery life
- Zero-power data retention
- No batteries required
- Low power consumption is easy on device's batteries
- **Easy to use** : plug and play

Specifications:

High Capacities:	128MB~2GB
Connector:	8pins
Low Power Consumption:	Maximum battery life
Compatibility:	Compatible with all digital cameras, digital music players, mobile phones, PDAs, and other devices featuring MMC and SD slots
Power Specification:	Environment Specification: Operating Temperature: -25oC~85oC Storage Temperature: -40oC~85oC Humidity: 8% to 95%
Performance:	Data retention: up to10 years Durability: Min.100, 000 insertions
Size:	15mm*11mm*1mm
Weight:	<1g
